PATCH

It's in the details

The legs of Patch are something out of the ordinary. They are made of solid oak and have a unique cut that is a characterizing design detail. Every line and chamfer is thought through and truly makes Patch a work of art.

Design by: Thomas Eklundh

Thomas Eklundh finds inspiration for a new design in almost everything, but mainly in film, art, and literature. With the ambition to make the everyday a little more exciting, he places great emphasis on both ideas and handcrafted details.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Added value

On all Patch items, it is possible to choose a top in oak instead of white lacquer. That makes the oak from the leg recur in the top plate.

This way the oak creates an artistic frame which adds another highlight and brings sophisticated symmetry to the product.

PATCH

SIMPLICITY & ELEGANCE

The product may look simple at first glance, but the closer you look, you'll see that behind both design and production lie hours of work. Each base is made in solid oak which allows the legs to have its characteristic form, a detail that expresses northern design and harmony.

All doors and drawers are equipped with a push-to-open feature. The clean lines appear clearly when no handles are needed. The appearance of Patch is a delight to the eye; especially for those who appreciate symmetry. Yet the symmetry is something out of the ordinary - the legs are made with a graphic twist that highlights the unique cut that is characteristic for Patch.
