

EXAMPLE

www.sole-runner.com

Total length 207mm

Choose Sole Runner Size 32

How to find the correct shoe size

When walking, running and romping, the foot in the shoe always slides forward a bit. Consider that when buying a shoe

Measure the longer foot from the heel to the longest toe. The child should stand on a wall to consider the heel flexion during measurement. The width results from the circumference of the foot

Add approx. 12 mm growth spurt

Check our size chart to find the right size

Kid shoe sizes, Width: wide

| Size | 25 | 26 | 27 | 28 | 29 | 30 | 31 | 32 | 33 | 34 | 35 |
