

## NEWSLETTER MARCH '19

### O S T E R S P E C I A L

New color, new luck. Spring is in sight and the emotions make joy jumps. They are like feathers, because they inspire us. Full of energy, the Wollmeise made a new color, „piórko“ means feather in Polish. The color impresses with its lightness. Bright mint green meets tender sky blue. This color combination is really for everyone! Look forward to more information.

# MOTHER'S DAY SPECIAL

„I mog Di (Bavarian: „I like you“). Three simple words and a great meaning. For the classic bavarian even bigger than „I love you“. For Mother's Day, we have therefore come up with something special! There is a great new color named ... Surprise ... „I mog Di“. Delicate play of colors from blue to purple in light and dark in the qualities Blend and Pure.

As a special feature, the color is only available in a gift set with our „I mog Di“ card and a heart shaped stitch marker. The recipients will be happy! More information to follow.

## GOOD TO KNOW:

- We will be at „Edinburgh Yarn Festival“ from 21st to 23rd of March. We are very happy to exhibit our wool there and can not wait.
