>> CLOSER TO THE EDGE <<

You can choose between two color combinations. You get six different NEW colors.

Right! 6 new colors!

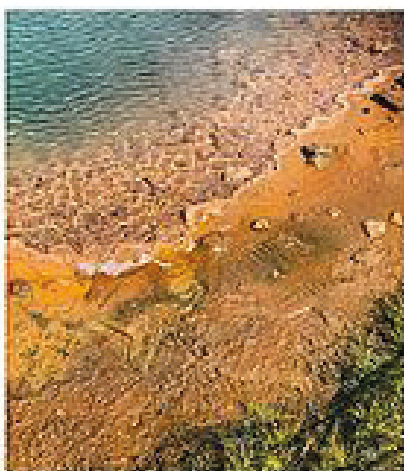

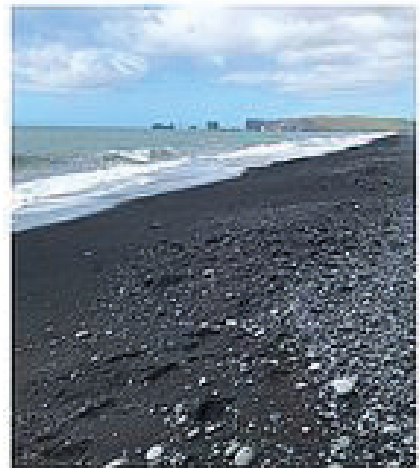

Pure nature: Contains (almost) all the colors of Iceland, sulphurous fumaroles, the blue sea, the colors of moss, lichen, stones, waterfalls, fish ...

This color combination is perfect for people who like warmer colors.

Berry tones: The name already reveals it. Look forward to multi-layered berry tones, sometimes very clear and fresh, sometimes muted, paired with grays and browns. If you like cooler tones, you will enjoy this mixture.

Official launch of sale: 27th of September - Shipment at the beginning of November

All information you will get in the next few days.

## CHAMERION

In September we set free our [Chamerion](#) Pattern. You can buy the manual and download it as a PDF and print it yourself. You get more information on our [Blog](#) next week.

## DATES

At the Strikkefestival in Fanø (20.09. to 22.09) we are definitely on the starting line.
