are in Pure also available for you!**

Many of you know my advent calendars, You also?

Last year we had the Iceland theme with a Shawl-KAL,
so that it was a cozy Christmas knitting season together.

I'm not doing a KAL this year, but you can still do it together Knit towards Christmas.
For years I made up my mind to knit pendants for my own Christmas tree and never
made it. So I got the idea that you might feel the same way.

First design patterns, find the right wool, take care of the accessories such as bells
etc. and no one with whom you can talk about it. I did it
and designed together with "Wichtelin" (at Ravelry)

24 different Christmas ornaments, that will be my Christmas present to you

and not be included in the price calculation. In your 24 bags you will find everything that is needed for the respective pattern, the matching wool in twin, the accessories, little surprises and of course the printed sample, which you will receive later as a PDF.

You have to get the cotton wool yourself,
the volume would have made the shipping costs much more expensive.

But now it comes, this will be an advent calendar PLUS!

For all those who are rarely allowed to unpack Christmas presents or who want to give presents to themselves, our calendar also comes with a wrapped present to be able to put under the Christmas tree.

Nim Teasdale

<https://www.ravelry.com/designers/nim-teasdale>

designed a shawl in Mosaic Knitting for us, for which I made 3 special colors in Pure.

You can choose between 2 color variants,

Purple and Brown,

the basic color fits both variants.

That would be a wonderful project for Christmas week,
to knit without any stress by the fireplace and hot chocolate.
