We miss our customers from around the world!  
Feel depressed wherever you are and the post cannot reach you because of Corona.  
We hope that we will be possible as soon as to send back to you without having to pay immensely high shipping costs.  
We are very sad about that too!  
We look forward to seeing you finally allowed to deliver again!  
Until then - take care

He used the following colors in Pure: Neptun dark, Neptun regular, Neptun light, Much Matsch, 2 Matsch, QED, Schwefel, Pistazie, Serpentin, Serpentin (neu), Zarte Knospe, Sabrina, Hamam, All Inclusive, Türkis, Jeton, Olio Vergine, Orchidee, Fuchsia

In this project there is not only a lot of skill but also a lot of time!

The dedication to the choice of patterns, the coherence of colors and contrasts are an absolute masterpiece.

The Wollmeise can't help it and is already fiddling around again.  
At the moment she is trying to breathe more life into well-known semisolid colors  
and to achieve delicate shades.  
And which yarn is best used for such effects?  
Of course with our lace yarn, look forward to vibrant colors  
that will perfectly show off your Shawls.
