

AUTUMN & WINTER  
2020/2021

NEW IN!

 Knitido®

## MAKE SURE TO HAVE A COSY WINTER

Do you know the not-too-cosy feeling of your extremities just having turned into ice cubes? Knitido is well aware – and has the solution. **This is how toe socks help with cold feet:**

- ✓ separate, mobile toes
- ✓ better blood circulation
- ✓ effectively warmer feet

Toe socks stimulate your thermoregulation – and you can finally say goodbye to all those ineffective, uncomfortable layers of socks.

Check out the **Knitido assortment** and buy the toe socks that meet exactly your needs and expectations.

**NEW IN** – You'll now find also mouth and nose covering **masks**: comfortable, seamless and adapting perfectly to your face. **In Knitido quality**, of course.

... And now there is nothing holding you back from enjoying a cosy winter.

## NEW IN: COMFY MASK

Masks have become part of our everyday lives – however, they don't always feel too good.

We have applied our know-how in 3D knitting and designed a substantial mask that perfectly adapts to your face.

No scratching, no pressure, no shifting.

- ✓ anatomical fit
- ✓ completely seamless
- ✓ double layered cotton
- ✓ washable up to 60°C

Now wearing a mask finally becomes comfortable.

## MERINO WOOL

### SAY GOODBYE TO COLD FEET

It cannot be warm enough for you?  
Then **merino wool** is the way to go:

- ✓ natural and warm fiber
- ✓ extremely soft and skin-friendly
- ✓ breathable, your feet stay dry

Our **warm toe socks** made of merino wool keep your feet warm for a long time – both at home and in shoes.

Even in the most rigid temperatures you won't have a reason to complain anymore.

## IF YOU LAYER, DO IT RIGHT

Wearing double layers can help when it gets really cold – but when not done right, the layers just end up disturbing, and your feet might feel even colder and damp.

Silk toe socks have natural temperature regulating properties and fit under all socks and tights.

- ✓ natural temperature regulation
- ✓ thin and very pleasant on the skin
- ✓ absorb moisture between the toes

Your feet stay dry long and are well protected.

# PERFORMANCE COMPRESSION

## FOR LONG DISTANCES

When preparing for a long-distance run (or even just a flight), you always have the dilemma: compression stockings are great, of course – but what if the pressure starts getting too much after some time?

**Asymmetric Compression** toe socks are here to solve this issue.

- ✓ anatomical compression, **only on the calf muscle**
- ✓ **no pressure** in the wrong place
- ✓ **gradual calf compression** (stronger **on the lower part**)
- ✓ **asymmetric arch support** (stronger **on the inner part**)

The pressure is **only where you need it** – and you can prepare for long distances, without a worry.

### YOUR DAILY GERM PROTECTION

Your feet are healthy and well protected in Dr. Foot® Silver Protect toe socks. Thanks to a specific knitting method, these cotton socks contain a silver thread that effectively provides a better foot climate. Silver naturally reduces bacteria, fungi and odours and is therefore a great help in case of neurodermitis, skin irritations and lesions. We recommend using Silver Protect toe socks in case of athlete's foot, sweaty feet and infections.

The heel and toes are especially susceptible to microbes. Moisture tends to accumulate between the toes and favours the growth of harmful microbes. Many germs also tend to nest in the callused skin, particularly on the heel (the heel and forefoot are the parts of the foot we strain most when walking; that is why we have more hard skin there).

We have therefore integrated the silver within the cotton thread at the forefoot and on the heel.

- ✓ certified silver thread
- ✓ natural germ protection
- ✓ prevents foot odours
- ✓ long-lasting effect
- ✓ washable up to 60°C
