UW-02

All-in-one Washing Curing Machine with large size

10.1-inch large solidify space

Two-in-one cleaning/curing

Speed/time selectable

Product parameters

Fully-enclosed machine size	325*295*485mm	Support Language	Chinese/English
Package weight	2.15kg	Curing size	Φ200*300mm
Speed	Fast/ Constant Speed	Package specification	425*395*545mm
Power supply power	75W	Input voltage	100-240V
Material of Washing basket	Stainless steel 304	Material of curing platform	Mirror stainless steel
Safety standards	UL/FCC/CE/ROHS/KC/PSE	Fully-enclosed weight	9kg
Washing size	240*160*200mm	Mode	Cleaning / Curing
Maximum model weight	2.5kg	SLA wavelength	385nm&405nm
Box type	Fully-enclosed	Material of Washing bucket	pp
Control software system compatibility : Windows 7 or above			

Product advantages

10.1-inch Washing/Curing Machine
Large space for washing and curing, To meet the processing demand of larger size models

360° all-around curing
360° specular reflections curing rotating platform With 385nm and 405nm dual band LED beads, All-round curing without dead band

Upgrade the lens UV lamp beads
Dual band UV lamp beads strip, Increase entire lens strip to make the UV light source irradiation is more uniform and concentrated a

Multiple cleaning methods
Two model cleaning modes(Washing basket cleaning+ Platform hanging cleaning), flexible cleaning methods

More powerful cleaning
Customized magnetic large fan blade, Super large vortex high-speed cleaning, strong removal of excess resin on the surface of the model

Larger size the washing basket
Accommodating larger size model for cleaning, Compatibility with All 10.1" and below SLA 3D printers on the market.

Speed/Time optional
Fast / medium speed adjustable, The 2/5/10/ 15/20/30min time can be adjust freely

Anti-UV Shade hood
Intelligent UV Shade hood switch, Two waveband (405nm and 385nm), UV light blocking rate of more than 99%

Friendly Interactive Interface
Touch-sensitive buttons, LED high-definition LCD display, Simple, Convenient and Sensitive.
