

The background of the cover features a large, stylized 'T' shape composed of blue and yellow diagonal stripes. To the left of the 'T' is a close-up of a hockey stick's blade, showing a black and white checkered pattern and yellow 'TRUE' branding. The rest of the background is a dark grey with a fine, repeating diamond pattern.

OBSSESSED

WITH BEING THE

BEST

THAT'S

TRUE

For over 100 years, TRUE Sports has demonstrated a commitment to bringing transformational technologies to market and does so with an unwavering determination to be #1 in everything we do.

In 2014, TRUE Sports entered the consumer hockey market with the launch of the TRUE Hockey brand. In just under seven years, TRUE Hockey has been recognized as a leader in innovation and the fastest growing brand in hockey. From a series of patented stick technologies to a category changing custom skate offering, TRUE Hockey continues to raise the bar through its game-changing, performance-enhancing products.

MADE TRUE. PLAY TRUE.

NEW TECHNOLOGY

Advanced laminate design for improved
weight and impact strength

Damped blade feel for improved control
and accuracy

25% increase in shear strength allowing for
more flexibility without decreased durability

CORE TECHNOLOGIES

- PLD, Precision Laminate Design, emphasizes how fiber angles, and the order of those angles, are optimized in up to 25 layers of unidirectional carbon fiber in a single shaft.
- Designed to provide both stiffness and impact strength in every layer, PLD allows engineers to reduce weight and increase impact strength.

- The 2021 CATALYST series incorporates all-new BAT, Braided Aramid Tech, for a stronger blade with increased damping properties.
- Leveraging our BRT+ expertise, BAT is built with new lower density Aramid fibers, instead of carbon, providing a lightweight, more consistent blade.

- New PASS, Performance Advanced Strengthening System, results in a 25% increase in strength over our historic XCORE technology.
- The increase in strength allows for a less rigid blade and prevents premature foam break down for increased blade durability.

- Our patented Axenic Technology combines a compression molded shaft into a true one-piece stick.
- Industry-leading Axenic Technology results in a seamless build, putting the player's hands in direct contact with the puck.

IMPROVED TECHNOLOGY

ENGINEERED FOR STRENGTH

Featuring PLD technology that optimizes 25 layers of carbon fiber, the CATALYST 9X is designed with an advanced laminate construction to reduce overall stick weight without impacting durability. The laminate construction optimizes fiber angles and provides both improved stiffness and impact strength.

NEW BAT TECHNOLOGY

DESIGNED FOR CONTROL

Yielding greater blade consistency and vibration damping properties on impact, our BAT technology incorporates lightweight braided Aramid fibers from the heel to the toe of the blade for superior accuracy.

40GRAMS LIGHTER

THAN THE 2019 XC9

WITH GREATER IMPACT STRENGTH.

SPREAD TOW FABRIC

OPTIMIZED WEIGHT

59% lighter than the fabric used in the 2019 XC9, our all-new, high-quality spread tow fabric encapsulates the CATALYST 9X shaft and blade, providing unmatched strength in a lightweight build for shot consistency and power.

*Curves Chart Page 81

CATALYST

TRUE

TRUE Hockey has developed four flex ratings, each with an optimized length for junior players of varying heights and weights. Choosing the right stick in the UFLEX line will help junior players maximize the performance of the stick during shooting and passing.

SIZE CHART

	WEIGHT	40 lbs 18 kg	50 lbs 22.5 kg	60 lbs 27 kg	70 lbs 32 kg	80 lbs 36 kg	90 lbs 41 kg	100 lbs 45 kg	110 lbs 50 kg	120 lbs 54 kg
HEIGHT	44" 1.12 m									
	45" 1.14 m									
	46" 1.17 m									
	47" 1.20 m									
	48" 1.22 m	FLEX 20								
	49" 1.25 m		FLEX 30							
	50" 1.27 m									
	51" 1.30 m					FLEX 40				
	52" 1.32 m									
	53" 1.35 m								FLEX 50	
	54" 1.37 m									
	55" 1.40 m									
	56" 1.42 m									
	57" 1.45 m									

The above chart is a guide that will help position each player with the right stick. However, there may be instances where the suggestions are not applicable to an individual player for a number of reasons. We strongly encourage all consumers to consult their local authorized TRUE retail staff who can help validate final stick choice for each individual player's needs.

By enhancing their sticks with the same patented technologies that the pros enjoy, TRUE Hockey offers junior players an optimized game time experience. TRUE technologies collide to provide them with the same confidence as their favourite NHL stars.

OPTIMIZED SHOT VELOCITY

Selecting the right flex rating allows players to maximize the flex energy load into the shaft, resulting in harder and faster shots.

GREATER ACCURACY & CONTROL

The flex of a stick is measured by the amount of weight needed to flex it, which will directly impact the performance a player can achieve with the stick. Selecting the right flex allows players to optimally direct their energy into the shaft, resulting in more accurate, harder, faster shots, better stickhandling, and improved passing.

CORE TECHNOLOGIES

INCREASED HANDLE DURABILITY

- Different to our ASERIES '20 collection, the CATALYST '21 family features an improved rounded corner shaft, and when combined with our new steeper shoulder angle from paddle to handle, offers ultimate feel and added grip while stickhandling.

OPTIMIZED IMPACT STRENGTH

- All-new PLD, Precision Laminate Design, optimizes the angles of carbon fiber layers throughout the shaft, increasing impact strength and offering optimal stiffness while reducing weight.

IMPROVED PADDLE WEIGHT

- By incorporating lightweight braided aramid sleeves throughout the paddle, blade, and heel, we've designed an improved braided rib system, BAT, which provides a damped feel, and optimized balance and durability throughout play.

REDESIGNED FLEX ZONE

- The redesigned, higher flex zone within the CATALYST '21 paddle is optimized for easier, faster loading times and more powerful passes while clearing shots.

As the leading global manufacturer of steel golf shafts, TRUE Sports is recognized as a trailblazer for our expertise in forming and heat treating exotic steel alloys.

Leveraging TRUE Sports' golf steel knowledge and our ambition to improve the skating experience, we have developed our own state-of-the-art DLC steel.

TRUE DLC STEEL

SKATE BLADE **NEW 2021**

- DLC is a PVD, Physical Vapor Deposition, coating treatment by which the blade is electrically charged with varying gasses to alter the chemical composition of the surface, allowing a 20% increase in surface strength when compared to its predecessor
- The hardened steel surface is less susceptible to be stripped by debris in stride, allowing the blade to hold a longer edge without adding additional weight
- Our DLC process results in a black, sleek finish, and comes standard in all custom skates

WELCOME THE EVOLUTION OF THE TRUE DLC STEEL *

**SHIFT DLC STEEL WILL COME STANDARD WITH ALL
CUSTOM PLAYER SKATES AS OF JANUARY 1ST, 2021*

TRUE

TF PRO

FIT FOR PERFORMANCE

COMFORT MEETS PROTECTION

The TF Pro tongue is non-traditional, layered with multi-density foam for comfort and support while maintaining its ultra-lightweight design. The T-Guard insert delivers enhanced protection against impact while preventing lace bite.

OPTIMAL SKATING POSITION

The reinforced strategically placed eyelets put you in an optimized knee-forward position facilitating natural and more direct energy transfer and maximum power in every stride.

DON'T MISS A **SHIFT**

The all-new SHIFT holder features enhanced BenchChange technology allowing faster blade replacement.

HYDROFOAM

Our antimicrobial, moisture-wicking liner keeps your feet dry while providing superior comfort through its multi-density foam construction.

REPLACEABLE TENDON GUARD

New fastening Tendon Guard system provides increased durability and a more sleek aesthetic design for the TF Pro Custom Skate.

REDEFINED ONE-PIECE BOOT

Created from a patented 3D anatomical foot scan and built from the inside out, the TF PRO Custom features a one-piece full carbon fiber shell with TRUESHELL tech wrapping the toe box to eliminate any weak points around high impact areas.

ULTIMATE **SHIFT** IN PERFORMANCE

TRUE Sports' expertise has led us to develop our own high-performance steel, SHIFT DLC Steel, which comes standard in our TF PRO Custom skates. This black DLC coated blade increases surface strength by up to 20%, improves edge retention and corrosion resistance, and reduces friction up to 40% as compared to uncoated stainless steel for extended blade longevity and a higher-performing product.

TF PRO

CUSTOM PLAYER SKATE 2020

The first of its kind, the TF PRO Custom skate delivers ultimate power, best-in-class fit, and unmatched performance. Our proprietary 'built from the inside out' manufacturing process, combined with a one-piece shell, delivers customized fit and explosive power transfer in every stride.

TRUE PRO CUSTOM ONE-PIECE GOALIE SKATE

/ ZERO ENERGY LOSS

/ NEUTRAL PITCH

/ LOWER ATTACK ANGLE

- The lower profile assists with maintaining edges before committing to the shooter. Without a traditional cowling, our boot allows for lower position to the ice for heightened feel, maximum control, and improved attack angle.
- Our one-piece molded design leads to zero loss of energy and responsive power transfer allowing goalies to get across the crease faster.
- Patented carbon fiber, monocoque design yields more direct power transfer and unmatched control while in the crease.
- Strategically placed eyelets put goalies in the deepest attack position, facilitating natural and more direct energy transfer when moving laterally.

IMPACT ENERGY MITIGATION SYSTEM. ULTRA-LIGHTWEIGHT. PERSONALIZED FIT.

TRUE

TRUE DYNAMIC 9 PRO

FEATURING

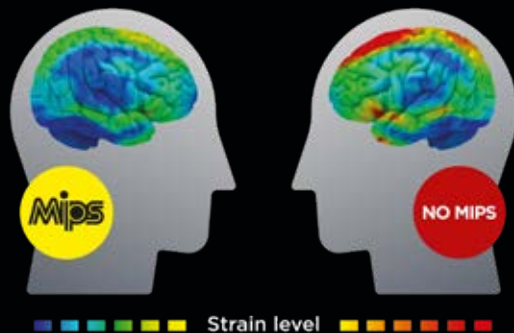

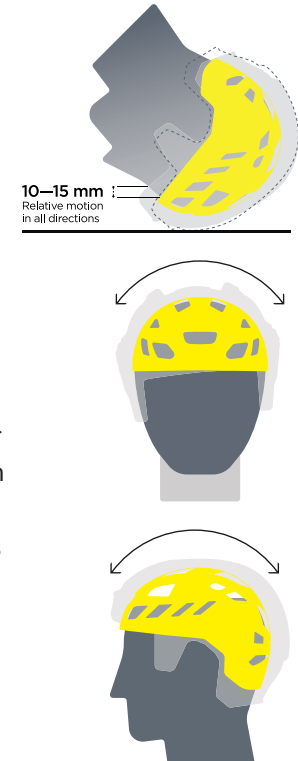

WHAT IS MIPS?

MIPS Technology is a helmet integrated, low-friction layer designed to reduce energy transfer from impact.

HOW DOES IT WORK?

In a helmet with MIPS Technology, the shell and the liner are separated by a low friction layer. When a helmet with the MIPS system is subjected to impact, the low-friction layer allows the helmet to slide relative to the head. This revolutionary system has been shown to absorb and redirect energy upon impact.

PLAYER BENEFIT

The illustration reflects data collected using a finite element computer model, and measurements obtained from nine accelerometers in a Hybrid III crash test dummy head. The model illustrates strain from a similar impact when the dummy head is wearing a helmet without MIPS and a helmet with MIPS.

HELMET TECHNOLOGIES

IMPACT ENERGY MITIGATION SYSTEM

MIPS Technology offers a low-friction layer designed to mitigate rotational energy sustained during impact.

ULTRA-LIGHTWEIGHT.

One-piece polycarbonate (EPP) shell construction makes the Dynamic 9 Pro helmet the lightest weight in its class.

PERSONALIZED FIT.

Coming standard in all Dynamic 9 Pro helmets, the interchangeable side and rear occipital Fitpads are available in three thicknesses, providing 360-degree adjustability and a personalized fit.

**NEW 2021****CARRY ELITE COMPARTMENT EQUIPMENT CARRY BAG**

Made from a blended abrasion, tear, and water-resistant ballistic Nylon Poly material, the Elite Compartment Equipment Carry Bag is perfect for full gear transportation, including glove, helmet, and skate pockets for easy storage and accessibility. Designed and built by players for players, this bag makes traveling to the rink as easy as possible.

SIZE	36"x 16"x 15"	COLORS	Black/White
-------------	---------------	---------------	-------------

EXTERNAL FEATURES:

- Main Material: Ballistic Nylon Poly blend offering abrasion, tear, and water resistance
- Large main compartment for easy organization and access through wide mouth opening
- TRUEAir Flow - breathable three layer mesh system for quick drying
- Reversible glove pockets integrated with Quick Dry Mesh
- Strategically placed and balanced TRUEAir Flow skate pockets
- Oversized, durable PU-coated water resistant zippers
- Easy to use zipper pulls

INTERNAL FEATURES:

- PACSMART internal compartments provide adjustable padded divider system for easy packing and unpacking gear
- HexComb Laundry Bag: 125g multipurpose reusable wet/dry, washable mesh bag featuring sectional side pockets, internal micro fleece helmet bag, and inner mesh pockets for additional items ie laces, cellphone, etc.

**NEW 2021****CARRY ELITE COMPARTMENT EQUIPMENT WHEEL BAG**

Made from a blended abrasion, tear, and water-resistant ballistic Nylon Poly material, and featuring heavy-duty ATV wheels, the Elite Compartment Equipment Wheel Bag lets you transport all of your gear, hassle-free. Additional secluded glove, helmet, and skate compartments makes storing and retrieving gear quick and efficient.

SIZE	36"x 16"x 15"	COLORS	Black/White
-------------	---------------	---------------	-------------

EXTERNAL FEATURES:

- Main Material: Ballistic Nylon Poly blend offering abrasion, tear, and water resistance
- Large main compartment for easy organization and access through wide mouth opening

- Reversible glove pockets integrated with Quick Dry Mesh
- Strategically placed and balanced TRUEAir Flow skate pockets
- Oversized, durable PU-coated water resistant zippers
- Easy to use zipper pulls
- ATV wheels

INTERNAL FEATURES:

- PACSMART adjustable padded divider system for easy packing and unpacking gear
- Polycarbonate back shell featuring crush resistant telescoping handle with protective bumper for ultimate durability
- HexComb Laundry Bag: 125g multipurpose reusable wet/dry, washable mesh bag featuring sectional side pockets, internal micro fleece helmet bag, and inner mesh pockets for additional items ie laces, cellphone, etc.

NEW 2021

CORE PLAYER EQUIPMENT BAG

As the largest bag in the TRUE collection, the Core Player Bag features a main easily accessible compartment designed to carry all necessary equipment, while is able to withstand the demands of an intensive travel schedule.

SIZE	39" x 16" x 15"	COLORS	Black/White
-------------	-----------------	---------------	-------------

FEATURES:

- Materials: 600D coated nylon pack cloth liner
- Large U shaped opening
- Fully lined pack cloth interior
- Heavy-duty, durable PU-coated water-resistant zippers
- Oversized webbing straps and handle loops

NEW 2021

ELITE DUFFLE PACK

Featuring a main storage compartment and additional separate pockets for gloves, helmet and skates, the Elite Duffle Pack offers ample storage space with optimal protection, while guarding critical contact areas against the stresses of frequent travel.

SIZE	26" x 12" x 12"	COLORS	Black/White
-------------	-----------------	---------------	-------------

FEATURES:

- Main Material: Ballistic Nylon Poly blend offering abrasion, tear, and water resistance
- Large main compartment for easy organization and access through U-shaped opening
- Two end pockets for additional storage
- Padded shoulder strap
- Multiple exterior grab handles
- Corner protectors guarding against tears at critical contact areas
- Oversized durable PU-coated, water resistant zippers

NEW 2021

ELITE EQUIPMENT BACKPACK WHEEL BAG

Featuring TRUEAir Flow breathable mesh for quick-drying, and multiple easy access compartments, the Elite Equipment Backpack is perfect for players looking for versatile storage while on the go in a sleek, everyday bag.

SIZE	22" x 18" x 18"	COLORS	Black/White
-------------	-----------------	---------------	-------------

EXTERNAL FEATURES:

- Main Material: Ballistic Nylon Poly blend offering abrasion, tear, and water resistance
- 4way Zip System for easy access to gear from all angles
- TRUEAir Flow breathable three layer mesh system for quick drying
- Reversible glove pockets integrated with Quick Dry Mesh
- Strategically placed and balanced TRUEAir Flow skate pockets
- Anti abrasion coated base
- Telescoping handle with comfortable grip
- All terrain wheels

INTERNAL FEATURES:

- PACSMART adjustable padded divider system for easy packing and unpacking gear
- Microfleece helmet bag with D ring
- Inner mesh pockets for additional items i.e. laces, cellphone, etc.

NEW 2021

ELITE BACKPACK

Featuring a laptop/tablet sleeve, main compartment area, and multiple front zippered panels, the Elite Backpack is the ideal bag for players looking for versatile storage in a stylish, lightweight, and tear-resistant design.

SIZE	20" x 16" x 7"	COLORS	Black/TRUE Blue
-------------	----------------	---------------	-----------------

FEATURES:

- Materials: 680D Cross Hatch textile with coated nylon liner
- 3 large compartments
- Fully lined pack cloth interior
- Heavy-duty, durable PU-coated water-resistant zippers
- Thick padded shoulder straps
- 45-liter pack

NEW 2021
ELITE PUCK BAG

With a reinforced polyethylene bottom including drain holes to eliminate post ice time condensation, the Elite Puck Bag stores over 40 pucks and includes additional side pockets for essentials, keeping the team game-ready at all times.

SIZE	13" x 7.5" x 11.5"	COLORS	Black
-------------	--------------------	---------------	-------

FEATURES:

- Holds over 40 pucks
- Reinforced polyethylene bottom with drain holes
- TRUE padded shoulder strap and easy grip side handles
- Zipped, front pocket for necessary accessories
- Oversized, durable PU-coated water resistant zippers

NEW 2021
ELITE TOILETRY BAG

Including heavy-duty, water-resistant zippers, dual hook loop, and fully-lined pack cloth interior, the self-standing, triangular Elite Toiletry Bag keeps your off-ice valuables dry while traveling to and from the locker room.

SIZE	10" x 5" x 5"	COLORS	Black/TRUE Blue
-------------	---------------	---------------	-----------------

FEATURES:

- Materials: 1000D nylon, 600D coated nylon pack cloth liner
- Triangular, spacious, and self standing shape
- Fully-lined pack cloth interior
- Heavy-duty, durable PU-coated water resistant zippers
- Dual hook loop and zipper pull
- Adjustable webbing wrist strap/handle loop

MINI STICKS

The TRUE Mini Composite Stick, made for both left or right-handed players and designed with AX9 or CATALYST 9X graphics, amplifies your game of pick-up or a round of knee hockey.

AX9

CATALYST 9X

MINI STICK KIT

The TRUE Mini Stick Kit provides endless hours of amplified floor hockey fun with two mini sticks, two nets, and one ball - everything you need for a game of one-on-one.

INCLUDES:

- Two Mini Sticks
- Two Nets
- One Ball

WATER BOTTLE

TRUE Water Bottles are leak proof and durable enough to withstand frequent travel and impact from the bench.

CAPACITY (PER BOTTLE)	1000mL - 34 Ounces
COLOR	White

- Durable and leakproof pressure cap
- BPA free & FDA approved
- Made in USA

SHOOTER TUTOR

A great training aid, the TRUE Shooter Tutor was designed with durability in mind, and simulates real game-time situations due to the size and position of key scoring zones.
